Skinology

Autumn

brings with it a change in the weather as the heat and humidity reduce and the air is drier. As a result we all need to adjust our skin care regimes and look at treatments that will revitalise, refresh and re-hydrate our skin after the hot summer sun exposure. One easy way is to try our very pampering Princess Facial Treatment. This gorgeous facial has a fantastic LED Light Therapy treatment included that makes it unbelievable value. Or try our fabulous "De-stress" body massage and you will be guaranteed to be looking and feeling terrific. But that's not where the special offers end. We have been inundated with calls to include our wonderful IPL and Triactive offers that we ran throughout Summer and we have not just relented but actually improved the offers to be even better value! Finally, we have a beautiful eye treat that is just too good to miss out on. So once again we have filled this newsletter with wonderful specials to help you look your very best. But you don't have to keep them to yourself. Please feel free to show this newsletter to friends, family and work mates so that they too can enjoy some terrific treatments. We promise to provide them with the same friendly care and attention that you enjoy each time you visit us.

See you in the salon soon,

Gay and the team from Skinology

NOW ONLY \$90

Every time we offer a facial special like this we get booked out quickly so call the salon and reserve your appointment time

TODAY!

Look after your body all year long.

After a long hot summer it is important to moisturise all your body not just your face. Even if you haven't been to the beach, you expose far more skin to the elements throughout the summer and this results in dehydration, dryness and scaly looking skin, especially on your arms and legs. A good body moisturiser like the Joyce Blok Aloe & E Body Lotion applied daily will fix this problem and you will enjoy gorgeous soft, supple skin all over. Instead of towelling yourself completely dry after a shower, try patting yourself dry so your skin is still slightly damp. This is the perfect time to apply your body moisturiser as it will spread further and absorb quicker. Joyce Blok Aloe & E Body Lotion

You Requested This – So we have included it again

Serious Skin Rejuvenation!

IPL (Intense Pulsed Light) Therapy is the very latest in skin rejuvenation techniques worldwide. A pulse of intensified light is applied to the skin penetrating to the deeper layers to stimulate the skin's building blocks such as collagen and elastin and help bring melanin (brown pigment from sun damage) to the surface where it can be exfoliated away.

If you are serious about improving the look and feel of your skin then IPL is going to achieve results!

VERY SPECIAL OFFER

Pay just \$1100 and have as many IPL skin rejuvenation, red vein, hair removal or pigment treatments as you like for 6 months.

NOTE: *Because everyone's skin is different and this is an invasive skin care treatment, a thorough consultation is required.*

PLUS You will also receive 6 MAX7 LED Light Therapy Treatments (Valued at \$570) - FREE

IPL Permanent Hair Reduction

Get rid of unwanted hair TODAY!

- Legs
- Back
- Bikini
- Arms
- Underarms
- Anywhere!
- Chest

Skinology only uses the very latest in Medical Grade Laser Hair Removal Systems and only extensively trained staff operate this very effective hair removal procedure.

If you want beautifully smooth, hair free skin – Then call TODAY for a consultation to determine the number of treatments required and the cost involved.

Special Offer

Pay just \$1100 and have all the IPL hair removal you like for up to 6 months.

Anywhere on your body, any time as often as you like for only \$1100.

You could be completely hair free and save hundreds of dollars.

Gay's Beauty Tip

The skin around your eyes is very fine and easily dehydrates. We recommend the Indio Eye Energiser Cream and the Eye C Serum to be used morning and evening. But remember to pat your eye cream around your eyes rather than wiping it across your delicate eye area. Rubbing and wiping actually stretches the skin creating wrinkles and folds. If you have any excess eye cream on your fingertips, rub it on your lips as it is also a brilliant lip balm. Applying a lip or eye cream on your lips before putting your lipstick on will maintain your lipstick coverage longer and lessen the effect of dehydration lines appearing on your lips.

We have a range of speciality eye products in the salon, your skin therapists will guide you to choose the right one for you.
